MONEY STOCKS AND BONDS.

4 Regular Midsummer Dullness Seizes the Market-Sugar Still Dropping. NEW YORK, Dec. 12 .- Money on call was easy, ranging from 4 to 6 per cent., the last loan being made at 4, closing offered

Prime mercantile paper, 6@712 per cent. Sterling exchange quiet and steady at \$4.8012 for sixty-day bills and \$4.8414 for demand.

The total sales of stocks to-day were 249,-224 shares, including the following: Atchison, 8,900; Delaware, Lackawanna & Western, 53,519; Lake Shore, 5,030; Missouri Pacific, 19,470; Northern Pacific preferred, 5,571; New England, 15,900; Reading, 29,850;

St. Paul, 9,600; Western Union, 11,446. The dealings in the railfoad list in the stock market, to-day, were smaller than for any full day for some time past, and the fluctuations were on the same limited scale, a party of traders making a market which, without the operations of the "bears," would have been as devoid of feature as on any day in midsummer. Money ruled easy at from 4 to 6 per cent., but, outside of the few purchases by London, there was no disposition to buy, and, the "bears" being confined their operations to a few stocks which they found vulnerable. There was some buying of Western Union in early portion of the day, which looked like covering "shorts," and on which the stock moved up and reached fractionally better figures than on yesterday, but the demand was soon satisfied, and the stock sank back into dullness and moved with the list. New England, Missouri Pacific and St. Paul were the only stocks of the regular list, other than Western Union, to show any animation, and the first named sloughed off slowly, but its extreme fluctuation was only 7s per cent. Missouri Pacific was sold on the supposed postponement of the meet-ing of the directors which was called for the 19th. Sugar was the great feature of the day, and it seemed to have absolutely no support whatever, and was weak without interruption from opening to close, the "bears" having no difficulty in selling it off from 61 to 5614. The coal stocks, of course, came in for their usual quota of attention from the "bears," and, while the pressure was again very heavy against Reading, it was more upon Lackawanna, and large amounts of the stock changed hands at steadily declining prices. Among the specialties Chicago & East Illinois preferred developed again marked weakness, and was sold down from 864 to 834, but there was no other feature whatever in the regular list. Cotton Oil whatever in the regular list. Cotton Oil showed marked strength in the forenoon, but lost all of the improvement later in the day. The opening was steady, and tame and after the first sales the strength in Western Union served as a support to the general list, while Sugar immediately began its downward march. There was a slight rally in it toward 11 o'clock, but it was the last one for the day, and its downward course was thereafter uninterrupted. The regular list soon felt the influence of this steady downward movement and the early strength gave way to a drooping tendency which finally wiped out the small improvement, and the market closed quiet but heavy, generally at a shade under the opening figures.

under the opening figures. erate degree of activity notwithstanding the dullness in shares, and the business today reached \$1,557,000, of which \$336,000 were in Gulf Colorado & Santa Fe firsts. The market was quite irregular and the bonds above mentioned were one of the strong features, the Louisville, New Albany & Chicago issues being another. Louisville, New Albany & Chicago firsts rose 4, to 119, the seconds 234, to 10234, and Minneapolis & St. Louis seconds 1, to 65. Government and State bonds were dull and strong. TRADING AT CHICAGO.

Grain Strong Early, but Weak Later in the Day-Pork Unsettled. CHICAGO, Dec. 12.-There was a better trade in wheat and the feeling was a little unsettled. The opening was a trifle tame, but under good buying the market became stronger and prices gradually advanced 38@12c above opening figures, then became easier and declined 34c, ruled steadier and closed about 4c lower than yesterday. The advance early in the day was attributed to light receipts and to general information on this point that the arrivals are likely to show a still further falling off. Clearances, too, were fairly large and promised to make a large showing this week. Under these influences and the report that a prominent miller in the Northwest had sold 20 .-000 sacks of flour for export at an advance, the market advanced and operators got long, but later when an attempt was made to sell the market was found to be without support and a quick reaction. followed. It was the impression among some traders that the early advance had been engineered to enable the selling of long wheat. Foreign markets were quoted steady and firm, with closing cables noting a quiet feeling. Corn ruled quiet and inactive early, with trading light and fluctuations narrow, but, as the session advanced, more interest was manifested and a moderate business was transacted. The feeling developed was easier, more particularly for December, offerings of this month being more liberal, a prominent local trader selling moderate quantities, as did, also, the local crowd, influenced some by the more favorable weather. The market opened at about the closing prices of yesterday, was steady for a time, but soon became weaker and declined 4c for December, 42 se for January, and 48 4c for May, ruled quiet and closed 48 4c lower than yesterday. In oats trailing was a trifle more animated. An unsettled feeling prevailed being firm early and realing prevailed, being firm early and weaker later. There was liberal buying by "shorts" early, one house covering 350,000 bushels of May at 2278/228c. An abundance of orders to sell May at 23c were on the market, but an insufficiency of buying orders prevented a majority from being executed. About noon weakness developed and under increased offerings prices receded to the late, and the market closed quiet. A fah. trade in mess pork was reported, but the feeling was somewhat unsettled. Prices ruled 5@10c lower early in the day, but railied again 212@5c and closed compara-

and closed at about outside figures. The leading futures ranged as follws:

Trade a Little Slow, with Firm Prices Ruling in Most Lines.

INDIANAPOLIS, Dec. 12. Trade is quiet. This is, in some measure. due to the mild weather but more to the fact that retailers are accustomed, at this season of the year, to permit their stocks to run down, to know with more certainty about how they stand financially. What business is done is on a legitimate and healthy basis. Seldom has there been a year in which so little of speculation was indulged in. Money has been easy, and prices on most staple articles steady. Of course, there are exceptions, such as found in the iron market. In the produce mar-kets there seems to be a fair business in progress. Both eggs and poultry, on account of the weather, have a downward tendency. Apples are rotting badly, which is weakening the market, unless it be on very choice truit. Oranges are in good demand, but really choice are still scarce. Sugars, coffees, teas-in fact. all staple proceries—carry a firm tone, and as stocks held are light in the West lower prices are

wheat and so large a per cent. of the corn arriving is of poor quality that it makes dealers timid in their bidding. Oats are in good request; receipts light. Track bids to-day ranged as follows:

Whenever you are compelled to allow a field to remain uncultivated for want of time or labor, it indicates that you have too much land, and that it will pay you to sell a portion in order that your efforts may be devoted to a smaller area.

It is claimed that a field planted to black walnut will pay better than any other crop if one has the patience to wait for such a crop to grow and mature. It is estimated that one acre, at the end of twenty-five years, will produce 10,000 feet of lum-ber, valued at \$1,000, or \$40 per year. Pumpkins contain 11 per cent. of solid matter. They are excellent for cows that are changed from pasture to dry feed. Many dairymen advise that the seeds be removed, as they act on the kidneys. Pumpkins should be sliced and a little bran

slightly salted, sprinkled over the pieces. Young stock of all kinds are easily and quickly affected by sudden changes of the weather. If affected by severe cold they are liable to be stunted, and will grow but little before the spring. Exposure to cold and dampness is one of the principal causes of scours and cold on the bowels of young

Rusk.—Melt one-half pound of butter and mix two-thirds of a pint of milk., flour to make a thick batter; add three tablespoonfuls of yeast and set the batter in a warm place to rise. When light beat two eggs with one-half pound of rolled sugar, work into the batter with the hand, add one teaspoonful salt, cinnamon and flour enough to make them sufficiently stiff to mold them into cakes the size you make biscuit; lay them out on flat buttered tins; let them remain until of a spongy lightness before baking. They will bake in about fifteen minutes in a quick oven.

DAILY, SUNDAY AND WEEKLY.

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianap-OLIS JOURNAL a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party. the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Jour-NAL gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known llterary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for he household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY
